# The Research

## Exposure

97% students confirmed that studying abroad served as a stimulant for increased maturity; 96% reported significant increase in self-confidence; while 95% had a lasting impact on their perception of the world.

## Immersion

85% of students in immersive cultural programs exhibit substantial improvement and are 3 times more likely to achieve advanced levels of linguistic fluency as compared to traditional classrooms.

## Cognitive

Students with access to immersive learning culture demonstrated a remarkable 83.3% development in cognitive and learning behavior, in contrast to passive learners at 16.7%

## Skill building

71% of employers stated their increased inclination towards hiring candidates who are bilingual or multilingual. Studies prove that Bilingualism can increase salary by 11% to 35%.
